BURNT AT SEA.

Fate of the Whaler John P. West.

Thrilling Scene Off Honolulu Early This Morning.

Crew Picked Up by the Steamer W. G. Hall—No Lives Lost

—Incendiary Origin
—Supposed.

The whaling bark John P. West, of the James Mackenna fleet of whal-ers, sailing out of San Francisco, took fire off Molokai about 4 o'clock this morning. The bark had been off for a cruise, having called here a few days ago, and Capt. Huntley had de-cided to return to bid his wife another farewell, as she was to leave on the S. S. Australia to-day for San Fran-cisco to receive medical treatment. It will be remembered that the ves-sel called here last week to leave Mrs. Huntley, she having taken seri-ously ill on the passage from San Francisco. Captain Huntley had just left the deck on the termination of his watch. He retired to his cabin and turned in. Only a few of the crew who were on the watch re-mained on deck.

Five minutes after the skipper had retired cries of "Fire!" were heard on shipboard. The alarm was given by one of the crew who had just come out of his bunk. He had seen fire and smoke issuing from the fore-hatch. The fire spread rapidly to the between decks, where there was quite a quantity of coal oil. Captain Huntley and his men tried to extin-guish the fire, but all efforts to do so were ineffectual. The fire was seen at 4 o'clock this morning while the bark was off Molokai, and half an hour afterwards the stern of the ves-sel was blown out.

According to the stories of the crew it would appear that on seeing the flames a sailor rushed to the spot and discovered two blankets between decks saturated with kerosene oil. He did not venture near enough to extinguish it because the flames were flaring up and would have been dan-gerous to approach. The skipper seeing there was no chance to save the vessel decided to leave her. "Lower all boats!" cried Captain Huntley and the order was immedi-ately complied with. Several of the crew were pulled out by their bunks and hustled out on deck, without knowing what was the matter.

The boats were lowered and the captain and crew, numbering about thirty-seven, hastened to enter them. They hovered around till the ship burnt down to the water's edge. The crew then started to row to Hono-lulu and were picked up by the steamer W. G. Hall. They were fairly exhausted and were given some refreshments on board the steamer.

The steamer could not tow the ves-sel in, as she was beyond saving. They arrived in port about 8 o'clock this morning and quickly sought E. O. Hall & Sons, agents of the vessel. Two of the crew managed to bring some clothes ashore in a bag, but the rest, including the captain, have nothing but what they had clothing their persons. No lives were lost and all are thankful for their safety. The vessel had made no catch so far, and Capt. Huntley had decided to sail up North after his call.

The John P. West was a new bark, having been only about nine years afloat, and the loss of so noble look-ing a vessel is deeply regretted.

The circumstance alleged of the finding of a blanket saturated with oil at the starting place of the fire is placed by suspicion against a sailor who was put in irons when the vessel called here, for insubordinate con-duct after the crew was refused liberty on shore. It is said this sailor was a Union man shanghaied on board at San Francisco, and who didn't want to stay with the vessel longer than he could help to talk. As Capt. Huntley refused to himself until an official inquiry was held, nothing but sailors' accounts can be obtained for anything now published. An in-quiry is being held at the United States Consulate this afternoon. The tug Eleu went out to the wreck at midday, and returning at 2 o'clock reported it still afloat and burning. The fire was apparently subsiding, however, and Capt. Rice of the Eleu thinks it will die out and the hull float.

HAWAIIAN CAMERA CLUB.

The members of the Hawaiian Camera Club are reminded that the 15th of this month is the latest date for the completion and delivery to the committee having the matter in charge, of prints intended for the annual prize print contest. It is to be hoped that all members will com-pete, and make this contest, and the exhibition to follow, a credit and a success.

FOR ABUSE OF ALCOHOL.

Use Horsford's Acid Phosphate.
Dr. W. E. CRANE, Mitchell, Dak., says: "It has proven almost a specific for this disorder; it checks the vomit-ing, restores the appetite, and, at the same time allays the fear of impend-ing dissolution, that is so common to heavy drinkers."

KAMOILILI MURDER CASE.

All Proceedings Ended by an Order of Court.

Justice has to go unrequited in the case of the Chinaman who died from the effects of burning and wounding at Kamoiili, when his cabin was assailed at midnight by a mob of his countrymen, he beaten and wounded and the cabin burned. It will be re-membered that the jury, after a week's trial last year, found insuffi-cient evidence to convict the six prisoners of murder. After their discharge for that crime they were arrested on a charge of arson, for the burning of the house at which the victim met his fatal injuries.

Counsel for the defendants entered a plea of *autre fois acquit* against their being tried for the lesser crime, holding that their former acquittal released them from all charges that might arise out of the circumstances in which the alleged greater crime had its origin. Pending and subject to the decision of this question, the Court granted a change of venue from Honolulu to the Maui circuit. The following order proclaimed in Court to-day puts an end to the whole matter:

"January 5th, 1892. The Queen vs. Lau Kin Chew and five others. Order of Court by Judd, C. J.

"In the matter of the six defend-ants charged with arson the majority of the Court has come to the con-clusion that the plea of *autre fois acquit* made in the case upon which a re-servation was made by me to the full Court is good and should be sustained.

"The opinion has not been written out yet but will be as soon as we can get at it, but my associates and I deemed it proper, under the circum-stances, the defendants having been in jail so long, to announce it now, and I suppose that all the proceed-ings with reference to the change of venue were made subject to the decision of the full Court on the question reserved, and, although the case was removed to the Maui Cir-cuit, this order discharging them I presume will nullify that order for a change of venue."

WORTHY OF A TRIAL.

If you are troubled with rheu-matism or a lame back, bind on over the seat of pain a piece of flannel dampened with Chamberlain's Pain Balm. You will be surprised at the prompt relief it affords. 50 cent bottles for sale by all dealers. Ben-son, Smith & Co., agents.

"German Syrup"

Here is an incident from the South—Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Bosche's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PETER J. BRIALS, Jr., Cayuga, Hines Co., Miss.
